Website Security & Payment Policy for Transactions

What information do we collect and how do we use it?
When you place a reservation through this website, we need to know your name, e-mail, phone number, address and credit card details if paying by credit card. This allows us to process and fulfill your property reservation successfully. It also helps us in maintaining your account.

How does Destination4Rent protect customer information?
When you place orders, we use a secure server. The secure server software (SSL) encrypts all information you input before it is sent to us. Furthermore, all of the sensitive customer data we collect is protected by several layers of encryption and several layers of security to prevent unauthorized access.

What form of currency do we use?
All property rental transactions will be processed in U.S. Dollars - $. We do not process foreign currency and are not in control of conversion rates.

Credit Card Details
All credit card payments are processed securely through ISILink and First Atlantic Payment Gateways. Payment by credit card is the fastest way to receive your booking reservation. Destination4Rent does not store any credit card information on our servers.

Payment Gateway Info
Our payment options presently available are limited but, most importantly, safe and secure. We offer Credit Card payments for site visitors and customers. Credit Card payments are made directly through a SSL Encryption gateway to ensure your personal details are kept safe. None of your payment details are stored – this ensures your information will be secure through the security of your transaction.
